SUMMARY

Video editor and motion designer who produces marketing videos from script to final export: editing, motion graphics, captions, colour, sound mix and every social cutdown. I edit in Adobe Premiere Pro, After Effects and DaVinci Resolve and design in Photoshop, Illustrator and Figma. I run a video service that makes explainer and interactive videos for businesses, built the custom HTML5 player they play in, and cut the ads that sell it on Meta, Google and YouTube in English and French. I also built the in-app video camera and editor of a short-video social app on the App Store and Google Play, so I know vertical, short-form video from both sides.

SELECTED WORK

- **TechlyStack explainer video** — 60-second animated explainer with stylized 3D cartoon characters and 2D product motion graphics composited over the scenes (AI-assisted 3D animation), voiceover, licensed music, captions; delivered as a 16:9 master plus 9:16 and 1:1 cutdowns and 15 s and 30 s edits.
- **Explainer video service** — techlystack.com/explainer-videos · 30, 60 and 90-second explainers for businesses, English and French versions, 9 sample videos; spec videos made for prospects.
- **Interactive videos** — techlystack.com/interactive-videos · videos with clickable hotspots and branches (choose your service, quote and booking funnels).
- **Ad creatives** — EN/FR promo videos in 4:5, 9:16 and 16:9 for Meta (Facebook/Instagram), Google and YouTube campaigns.
- **VOOCONNECT** — [App Store](https://www.appstore.com) · short-video app: in-app camera and video editor (FFmpeg), duet/stitch, stories, live streaming, HLS video transcoding.

EXPERIENCE

Lead Software Engineer — TechlyStack

Apr 2026 – Present

AI website-builder & local-marketing SaaS, incl. a video production service · techlystack.com

- Produced the company's explainer and promo videos and the sample reel: storyboard, edit, motion graphics, captions, music under the voiceover (loudness-normalized to -16 LUFS), and all aspect-ratio cutdowns at the same quality.
- Run the video service workflow: script and storyboard revision rounds, client project brief, delivery; watermarked preview pages for spec videos.
- Designed and coded the custom HTML5 video player (no YouTube), interactive hotspots and the video landing pages in English and French.

Lead Mobile & Backend Engineer — VOOCONNECT

2021 – Present

Short-video social app (reels, live streaming, chat) · vooconnect.com

- Built the video creation tools of a Flutter app released on the App Store and Google Play: camera, editor (FFmpeg), duet/stitch, stories and live streaming (Agora).
- Run a self-hosted Linux/Docker server for HLS video transcoding; migrated 9 GB of media to Cloudflare R2.

IT Technician / AI Developer — Members Only Shop Supplies

Feb 2025 – Present

Auto-body & paint supply distributor, Paramount, CA (remote) · membersonlyshopsupplies.com

- Design and build the company's online store, marketing hub and iOS/Android app (App Store and Google Play).

SKILLS

Editing

Adobe Premiere Pro, DaVinci Resolve, Adobe After Effects; story editing, pacing, multi-format cutdowns (16:9, 9:16, 1:1, 4:5), 15/30/60/90-second edits
